OHCA
OHIO HEALTH CARE ASSOCIATION

Meeting the needs of Ohio's Long-term Care Professionals since 1946

Identify top performing job applicants while
reducing turnover and increasing performance.

Build your team at...

ingelix.com

The landscape of healthcare organizations is changing. Finding and keeping the right people takes time, energy, and is often surrounded by uncertainty. Finding the right person and putting them on the right team maximizes employee performance.

Ingelix helps you find and keep the right people.

We are focused on and understand that the healthcare environment is unique and offers varying opportunities and challenges when it comes to people. We have identified a proprietary method that determines what makes an individual successful within this specific space.

Our tools are calibrated for your specific environment. Every organization is comprised of a blend of people and personalities creating an organizational culture unlike any other. Ingelix captures trends within your organization allowing us to predict future needs.

Why Ingelix?

- **Industry Specific:** Our solution is customized for healthcare
- **Easy to use:** Using generated business analytics, our solution decreases the time it takes to make employee decisions
- **Cost effective:** Our unique pricing focuses on providing overall metrics for your organization
- **Flexible and Predictive:** As your workforce evolves, so should your workplace metrics. We make this happen.

We help you gain useful insights into your workforce through the synthesis of employee data. Our virtual environment offers a cloud based, **real-time algorithm-hiring solution that identifies top performing job applicants while reducing turnover and increasing performance.**
