

The pioneer of

# ASSESSMENT TECHNOLOGY

to identify & retain high performance

Identify – Hire – Inspire – Retain High Performers!

## CUSTOMIZED, INTERCHANGEABLE PRE-EMPLOYMENT TESTS

*As a standalone solution.*

Either as a stand-alone solution or alongside our compatibility, team analysis, and exit monitoring processes, the Ingelix™ Hiring Assessment Battery is the most advanced assessment library found in the industry. Our library contains an elaborate set of validated and interchangeable hiring metrics specific to you.

This allows for the creation of an unlimited number of custom hiring assessment batteries that can be changed on the fly as the needs for each position within your organization changes.

## WHAT'S INCLUDED? EVERYTHING!

### UNLIMITED FEATURES

No charge for all Ingelix™ features associated with your account level. Everything you need to Identify, Hire, Inspire, and Retain comes with your Ingelix™ account.

### UNLIMITED USERS

All Ingelix™ accounts come with unlimited standard-user licenses. Add administrative users as necessary at no additional charge.

### UNLIMITED SUPPORT

We are committed to your success. Ingelix™ staffs a live help desk 24/7/365 so applicants and employees are never left without the immediate help if it's needed.

### UNLIMITED TRAINING

Ingelix™ offers all customers ongoing, unlimited training as needed. For seasoned employees who simply need a refresher or new employees who need to learn basics, Ingelix™ has you covered!

## COMPATIBILITY, TEAM ANALYSIS & EXIT MONITORING

*As add-on solutions.*

The Ingelix™ Compatibility and Team Analysis compares the results of custom assessments allowing for the quick identification of any possible personality conflicts before asking employees to work together. Understanding the work dynamic between two people is at the core of being a productive organization.

Exit monitoring analyzes those employees who leave your workplace and what critical skills and behaviors they take with them. This adaptation process is unique to Ingelix™ and is a method of data automation that allows us to identify insights and trends within your workplace without human intervention. Ingelix™ then adapts your future hiring requirements based on your immediate needs. The overall goal is to maintain a workplace balance of high performance with your organizations most valuable asset...your people!
